Fastener Finishes

Stainless fasteners are in stock. We also stock stainless items coated with Blue Xylan to endure the harsh ocean environments. We go to the platers everyday to fulfill orders for coated fasteners. You can select from items on our shelf or we can expedite the order if a special coating is required.

Technical Data

If you need a Technical Guide, then call or email us. We can provide your company with a Technical Guide that contains more specific information about mechanical qualities and strength.
