OTHER TYPES OF BOLTS

AVAILABLE TYPES

Our warehouse has an area reserved for specialty bolting. Our customers in the valve industry and heavy equipment fabrication industry rely on The Nut Place. For example, we supply sub-sea valve companies with B7/B7M, B8/B8M, and L7/L7M bolting. We can supply high-nickel bolting like Alloy 20, Inconel, Monel, and Hastelloy. Looking for GR660? We sell it. Heavy fab shops order fasteners from us like L9, also known as Grade 9.

Call or email us if you're looking for other materials or diameters.

Fastener Finishes

We have plated fasteners in stock. We go to the platers everyday to fulfill orders for coated fasteners. You can select from items on our shelf or we can expedite the order if a special coating is required.

Technical Data

If you need a Technical Guide, then call or email us. We can provide your company with a Technical Guide that contains more specific information about mechanical qualities and strength.
